

# OFFICIAL DISPATCH

VIENNA

DISPATCH NO.: MAVA-2154

**SECRET**

CLASSIFICATION

DATE: 24 November 1948

TO : Chief, Foreign Branch M  
FROM : Chief of Station, Vienna, Austria  
SUBJECT: General: Iceberg Operation  
Specific: Designation of Iceberg Projects  
REF : Kapok MAVA-1966, Kapok MAVA-2042

Attention: ☐ ☐

1. To simplify reference to the numerous operations involving the use of W/T, we believe it best to designate each separate project, whether it be a burial, training, or a blind burial, or a combination of these, with an operational name based on the overall project name of Iceberg. Instead of referring to "set number one", we would refer to project "Iceberg Able", and so on.

2. In accordance with procedure of identification, the individual burials etc., listed in Kapoks MAVA-1966 and MAVA-2042, are herewith assigned the following operational names:

a. Project involving the burial of sets number 1 and 7 will be referred to as project Iceberg Able, (first burial Able one, second Able two). ☐ is operator; signal plan is Blumen. Plans are in possession of ☐ ☐

b. Project involving the burial of set number 2 will be referred to as Iceberg Baker. ☐ is operator; plan is Obst. Plans are with ☐ ☐

c. Project involving the burial of set number 3 will be referred to as Iceberg Charlie. No plans; no operators.

d. Project involving caching of set number 4 will be referred to as Iceberg Dog. No plans; no operators.

e. Project involving burial of set number 5 will be referred to as Iceberg Easy. No plans; no operators.

- 2 -

- noted  
isbop* f. Project involving burial of set number 6 will be referred to as Iceberg Fox. No plans; no operators.
- noted  
isbop* g. Project involving burial of set number 8 will be referred to as Iceberg George. No plans; no operators.
- noted  
isbop* h. Project involving burial of set number 9 will be referred to as Iceberg How. No plans, no operators.
- noted  
isbop* i. Project involving burial of set number 10 will be referred to as Iceberg Item. No plans, no operators.

3. Should an agent-operator be assigned more than one set, one of the burial projects will be cancelled and reference will be made to only one project name - for example, the Iceberg Able project, in which case the operator possesses two sets. All changes in the above arrangements should be co-ordinated with [ ] [ ].

4. Signal plan names will be assigned by [ ] [ ]. Any special radio operations which can be mounted will bear names other than that of Iceberg unless directly connected with the stay-behind activity.
